

NKUHT Language Center FAQ- 114 Academic year

Questions	Answers
Second Foreign Language Courses	
Can I take two different languages in the same semester? Or, if I have already waived or passed my second foreign language credits, is it possible to take another second foreign language course? Does the credit count?	In principle, students should take one course. However, if you wish to take another one, your place in the second class must not occupy the place of a student who needs the class to fulfill their second language requirement. In addition, please consult with your department as to whether you will get credits for the course.
If I don't like the date and/or time of my department (college) second foreign language course, can I take a course with a different department (college)?	No, you must sign up for a course that is offered to your department (college). As the date and time of the second foreign language courses change each semester, there is no guarantee that you will not have a scheduling conflict between your departmental courses and the second foreign language courses if you sign up for a course with another department (college).
Is it possible to change second foreign language classes (EX: Japanese Class A to Class B for the second semester)?	No, each class has different teaching materials, and the course curriculum is for one year, so it is not possible to change classes.
Is it possible to manually (printed form) sign up for a specific second foreign language course when the course registration system shows the class is already full?	No, if the course you want to sign up for is full, please choose another language course.
If I failed to pass Second Foreign Language Course, is it possible to take a different language course?	Yes, you may take a different language.
If I failed to pass Second Foreign Language Course, how do I retake it?	Sign up to retake whichever course you didn't pass. (2 credits).
Is it possible for Graduate School/Night School/Five-Year/Two-Year Program students to choose Day School second foreign language courses?	Yes, it is possible to do it manually (printed form), but 4-year Day School students have priority to choose courses. In addition, please consult with your department as to whether you will get credits for the course.
How can I apply to exempt the second foreign language courses?	Please bring your Second Foreign Language Credit Exemption Application Form and original (and duplicate) copy of your language proficiency score to the Language Center for processing starting from the first day of Second Foreign Language classes of your first semester through the first week of your second semester. Please consult the Language Center website for regulations on exempting second foreign language courses. Students are required to complete 2 credits of General Education courses for Juniors/Seniors to make up for the exempted Second Foreign language credits.
Do the second foreign language courses have different levels?	No, Second Foreign Language Course is beginning level and Practical Courses is intermediate level.

GE English Courses

Can I choose whichever class I want when I sign up to retake a GE English course?	No, students must retake a course at the same level of their original course. Only when there is a course conflict with a student's required department course may the student retake a GE English course with a different department. However, the level still has to be equivalent to the student's original course. The Language Center Assistant will determine the appropriate make-up class for students.
Is it possible to change GE English course levels?	Students are allowed to move up 1 or 2 levels if they were in the top 10% of their class in the previous semester and obtain approval from their current teacher, the teacher of the class they would like to move to, and the Language Center. Students may not move down a level. See the Language Center website for details.
How can I exempt GE English courses?	Students can submit a GE English Exemption Application Form and an original and duplicate copy of their English Proficiency score (having been attained within two years) to Language Center from the first day of classes of their first semester at NKUHT through the first week of their second semester at NKUHT. For information on specific requirements, please check Language Center Website/Download/ Rules for Academic Credit Waiver for 4-Year College General Education English Courses. Students are required to complete 8 credits of General Education courses for Juniors/Seniors to make up for the exempted General English credits.

English Language Proficiency Graduation Requirement (A)

Does the English Certificate required to meet the graduation requirement have an expiration date?	According to the "Rules for 4-Year College English Language Proficiency Graduation Requirement," students must submit a photocopy of valid proof of passing an approved English proficiency test (including results obtained before or after admission) through the online license application system before graduation. The documents must be reviewed and approved by the respective department/program and Language Center. There is no regulation specifying an expiration date for the certification; please refer to the graduation requirements of each department for specific criteria.
How can seniors (juniors with senior year internships) take the Remedial English Test-Prep Course?	In the second semester of the fourth year, the Language Center will offer a remedial English course for students who have not met the English graduation requirement. Fourth-year students who have not fulfilled the requirement are advised to enroll in the course during the add/drop period.
